## Ministers Council ABCUSA Local Chapter Report 2017-2018

11. Overall, what is going well? **We are very excited that our local chapter website has launched! Given our limited resources, the leadership team determined to invest in the creation of a website. Through our website we hope to better communicate with our members, provide resources, support on-going National resources (example: monthly webinars) and so much more! The website also supports two of our significant initiatives right now: our Health and Wellness and Seminarian Engagement initiatives.**
12. Is your chapter experiencing any challenges? If so, describe. **Like many chapters we are trying to determine how to best use our time and energy that will result in the building up collegial relationships. We have found that the wide range of "life stages" present unique challenges when trying to design opportunities for members to engage. Additionally, the wide range of ways in which our clergy serve mean that there is no one "perfect" time to host events. We continue to seek ways in which we might create various opportunities while also recognizing our leadership teams own limited time.**
13. Do you have recommendations for other local chapters? For National board or staff? **We will be creating a document that makes recommendations for how to build a website for their local chapter. We will share some of the things we learned along the way that will hopefully help other chapters successfully build this tool as well.**
14. How might we support you better? **Making webinars available at various times (morning, afternoon, evening) is VERY helpful!**
